

MD ASHIQUR RAHMAN

Software Engineer | PHP & Laravel Backend Developer | SaaS & REST API Specialist

Dhaka, Bangladesh | +880 1609087059 | mdrahmanashiqur3@gmail.com

linkedin.com/in/kazi-ashiqurrahman | github.com/kaziashiqur

PROFESSIONAL SUMMARY

Software Engineer with **5.5+ years** of experience building production-grade web applications with **PHP, Laravel, and MySQL** across SaaS, e-commerce, booking, and fintech domains. Delivered **20+ full-stack applications and RESTful APIs**, including multi-tenant SaaS architectures, real-time interfaces with Laravel Livewire, and **payment gateway integrations**. Owns systems end to end, from database design to deployment, and has mentored junior developers and led small feature teams. Comfortable with JavaScript, Node.js, React.js, Docker, and AI-assisted development workflows.

TECHNICAL SKILLS

Backend: PHP 8.3, Laravel, Laravel Livewire, Eloquent ORM, MVC Architecture, Object-Oriented Programming (OOP)

Frontend: JavaScript, Node.js, React.js, jQuery, HTML5, CSS3, Blade Templating

Database: MySQL, Database Design, Query Optimization

APIs & Architecture: RESTful API Design, Multi-Tenant SaaS Architecture, System Design, RBAC, Third-Party API Integration

Domain Expertise: Payment Gateway Integration, E-Commerce Platforms, Booking & Reservation Systems

DevOps & Tools: Git, Docker, Code Review, Debugging, Performance Optimization, Technical Documentation

Professional: Team Leadership, Junior Developer Mentoring, Requirements Analysis, Client Communication

PROFESSIONAL EXPERIENCE

Software Developer (PHP / Laravel)

January 2021 – Present

THESOFTKING Ltd, Bangladesh

- Delivered **20+ production Laravel applications and RESTful APIs** for SaaS, e-commerce, booking, and fintech clients, owning each system from MySQL database design through deployment.
- Architected **multi-tenant SaaS platforms** that serve multiple isolated client instances from one shared codebase, reducing duplicate maintenance effort.
- Integrated **4–6 payment gateways** and third-party APIs to build secure, scalable transaction flows for e-commerce and booking platforms.
- Built real-time, dynamic user interfaces with **Laravel Livewire**, eliminating full-page reloads and improving application responsiveness.
- Developed domain systems including hotel management SaaS, bus ticketing and fleet booking, multi-vendor booking, e-commerce storefronts, a microstock marketplace, a matrimony platform, an eSIM purchase platform, and a video streaming platform, implementing role-based access control, subscriptions, and automated payouts.
- Mentored junior developers and led small feature teams, conducting code reviews.
- Maintained live production systems, balancing new features with stability and performance.

Junior Software Developer (PHP / Laravel)

March 2019 – December 2020

Deshi System Limited, Bangladesh

- Developed and maintained PHP/Laravel web applications, delivering backend features, MySQL schema changes, and bug fixes.
- Built a strong foundation in Laravel architecture, database design, Git, and code review workflows.

EDUCATION

B.Sc. in Computer Science & Engineering

2020

Bangladesh Institute of Science & Technology (BIST), Dhaka | CGPA 3.34 / 4.00

Higher Secondary Certificate (Science), Rangpur Govt. College | CGPA 4.57 / 5.00

2015

Secondary School Certificate (Science), Kallani High School | CGPA 5.00 / 5.00

2013

LANGUAGES & AVAILABILITY

Languages: Bangla (Native), English (Professional Working Proficiency)

Seeking: Mid-to-senior Software Engineer / Laravel Developer role; open to relocation (Australia, Canada, India, UK, US)
